NORTHWESTERN UNIVERSITY

**ONE HUNDRED AND THIRTY-SIXTH
ANNUAL COMMENCEMENT**

9 A.M., SATURDAY, JUNE 18, 1994

**WELSH-RYAN ARENA
MCGAW MEMORIAL HALL
EVANSTON, ILLINOIS**

UNIVERSITY SEAL AND MOTTO

Soon after Northwestern University was founded, its Board of Trustees adopted an official corporate seal. This seal, approved on June 26, 1856, consisted of an open book surrounded by rays of light and circled by the words *Northwestern University, Evanston, Illinois*.

Thirty years later, Daniel Bonbright, professor of Latin and a member of Northwestern's original faculty, redesigned the seal, retaining the book and light rays and adding two quotations. On the pages of the open book he placed a Greek quotation from the Gospel of Saint John, chapter 1, verse 14, translating to *The Word . . . full of grace and truth*. Circling the book are the first three words, in Latin, of the University motto: *Quaecumque sunt vera* (Whatsoever things are true). The outer border of the seal carries the name of the University and the date of its founding. This seal, which remains Northwestern's official signature, was approved by the Board of Trustees on December 5, 1890.

The full text of the University motto, adopted on June 17, 1890, is from the Epistle of Saint Paul to the Philippians, chapter 4, verse 8:

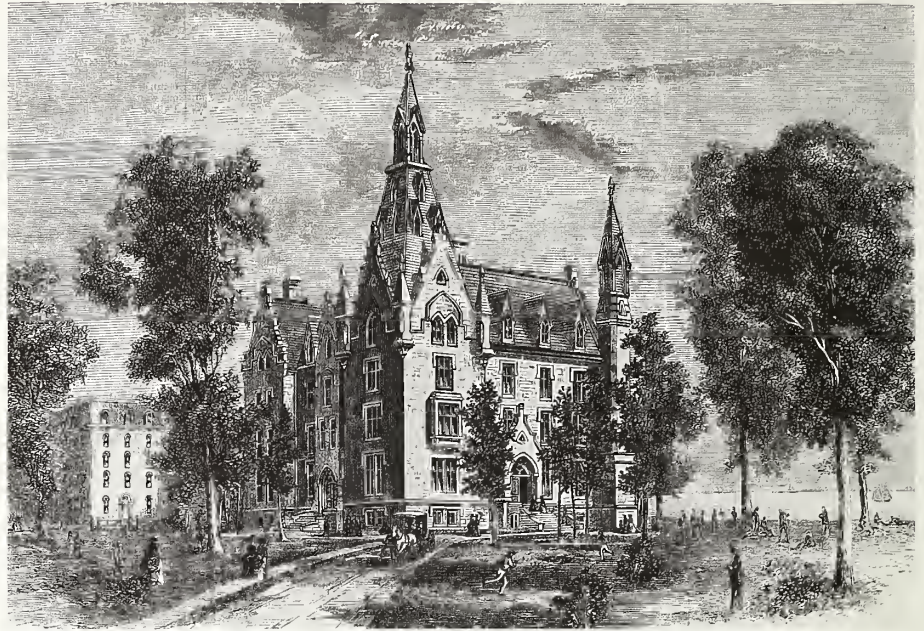

*Whatsoever things are true,
whosoever things are honest,
whosoever things are just,
whosoever things are pure,
whosoever things are lovely,
whosoever things are of good report;
if there be any virtue,
and if there be any praise,
think on these things.*

HONORARY DEGREES

VALDAS V. ADAMKUS

Doctor of Laws

BS, Illinois Institute of Technology, 1960. As administrator for Region V of the Environmental Protection Agency since 1981, Adamkus has directed all federal environmental protection programs in the six state Midwest region. He has served as a regional administrator for an unprecedented five terms and was deputy administrator for the previous ten years. During his tenure significant progress has been made in reducing pollutants in the Great Lakes. He was United States chair of the Great Lakes Water Quality Board, a United States-Canadian commission charged with implementing the Great Lakes Water Quality Agreement. Adamkus has frequently represented the EPA on environmental affairs in the former Soviet Union and other Eastern bloc countries; since the collapse of the USSR, he has been an influential adviser on environmental matters to the government of his native Lithuania. In 1985 President Reagan awarded Adamkus the Distinguished Executive-Presidential Rank Award, the government's highest honor for a civil servant. He has also received the Gold Medal for Exceptional Service from the EPA.

Presented by Bruce E. Rittmann, John Evans Professor of Civil Engineering, Robert R. McCormick School of Engineering and Applied Science

HAROLD DEMSETZ

Doctor of Humane Letters

PhD, Northwestern University, 1959. Arthur Andersen Alumni Professor of Business Economics at the University of California, Los Angeles, Demsetz is author of many pathbreaking articles that have significantly changed the way economists and other policy analysts understand key economic institutions. "Toward a Theory of Property Rights" (1967) offered a new conception of how property rights emerge in response to external changes in demand for limited resources. "Why Regulate Utilities?" (1968) suggested that competition for a market might serve as an adequate substitute for competition in a market. "Two Systems of Belief about Monopoly" (1974) argued that firms with high market shares might enjoy high profits either because of monopoly, which was the prevailing view, or because of greater efficiency. In addition to UCLA, Demsetz has taught at Washington University, the University of Chicago, and the University of Michigan. He is a founding member of the American Law and Economics Society and is senior editor of *Supreme Court Economic Review*. He is a fellow of the American Academy of Arts and Sciences.

Presented by Ronald R. Braeutigam, Harvey Kapnick Professor of Economics, College of Arts and Sciences

BEATRIX A. HAMBURG

Doctor of Humane Letters

MD, Yale University, 1948. President of the William T. Grant Foundation, Hamburg was trained in psychiatry and pediatrics. She has been a pioneer in the study of children and adolescents, incorporating the complex interplay of biological, psychological, social, and economic forces.

As a faculty member at the Stanford, Harvard, and Mount Sinai medical schools, she examined the stress of early adolescence in America. She called attention to the ways that physiological changes are exacerbated by educational policies that move children from elementary into middle schools just at puberty, cultural sex roles that lead early adolescent girls to underestimate their talents, and social structures that lead students of color to recognize the limited range of futures realistically open to them just as they are beginning to explore such futures. She has forcefully represented the interests of adolescents to policymakers in academe, government, and national foundations. She is a member of the Institute of Medicine and the British Royal Society of Medicine.

Presented by Newton N. Minow, Trustee, Northwestern University

CHARLES RICHARD JOHNSON

Doctor of Arts

MA, Southern Illinois University, 1973. Grace M. and S. Wilson Pollock Professor of Creative Writing at the University of Washington, Johnson received the National Book Award for *Middle Passage* (1990), a novel set on a clipper ship engaged in the 19th-century slave trade. He was born and reared in Evanston, where as a teenager he worked as a cartoonist, short story writer, and journalist. The novels *Faith and the Good Thing* (1974) and *Oxherding Tale* (1982) and a collection of stories, *The Sorcerer's Apprentice* (1986), combined materials from the African American experience with exploration of perennial and universal philosophical themes and established Johnson as a major literary talent. His book-length essay, *Being and Race: Black Writing Since 1970* (1988), frames the study of African American writing in

the context of larger issues concerning the literary enterprise and the black experience. He has also written 20 scripts and appeared in programs on Public Television, including "Charlie's Pad" (1970) and "Booker," an award-winning program about Booker T. Washington's childhood. His current work includes a novel about the civil rights movement and screenplays for Hollywood.

Presented by Gary Saul Morson, Frances Hooper Professor of Slavic Languages and Literatures, College of Arts and Sciences

ELVIN A. KABAT
Doctor of Science

PhD, Columbia University, 1937. Higgins Professor of Microbiology Emeritus at Columbia University, Kabat has been the foremost leader in the field of immunology for more than 40 years. His research has centered on immunochemistry and the molecular basis of the response of the body to invasion by bacteria, viruses, and other foreign proteins mediated by antibodies. He has led the field in the study of the genetic control of the body's immune response to disease. He was among the first to recognize that the antigen-antibody response was chemical in nature and to characterize many of the details of the immunochemistry of the antigen-antibody reaction. Kabat was elected to the National Academy of Sciences and to the American Academy of Arts and Sciences in 1966. In 1991 he was awarded the National Medal of Science, the nation's highest honor given to a scientist, in recognition not only of the quality and quantity of his scientific accomplishments but also of his service to the United States and to world health throughout his long, distinguished career.

Presented by Irving A. Klotz, Morrison Professor of Chemistry Emeritus, College of Arts and Sciences

EPPIE LEDERER
Doctor of Humane Letters

The syndicated columnist known to millions as Ann Landers, Lederer began writing an advice column 35 years ago. On the death of the original writer, she assumed responsibility for a feature that appeared in several dozen newspapers; today, it appears throughout the world in 1,200 newspapers with a daily readership estimated at 90 million. She receives about 2,000 letters from readers each day; assisted by her staff, she selects the letters she will answer in her column—often drawing on the counsel of recognized experts in the fields she addresses. While raising the advice column to an art form, she has taken principled stands on such controversial issues as gun control, a woman's freedom of choice, assisted suicide, and the necessity for appropriate use of animals in biomedical research. Lederer has received numerous honors, including the American Medical Association's Citation for Distinguished Service, and was the first journalist to receive the Albert Lasker Public Service Award.

Presented by J. Ira Harris, Trustee, Northwestern University

PATRICIA NEAL
Doctor of Arts

After studying at Northwestern, Neal gained immediate recognition on the Broadway stage and received the Tony and Drama Critics Awards for the best new actress of 1946. Her stage success led to a contract with Warner Brothers, for which she made 13 films in four years. Her film career was interrupted by the severe injury of one child and the death of a second. After resuming her acting career, she starred with Paul Newman in *Hud* and received a 1963 Academy Award. A series of strokes then left her partially paralyzed. Determined to regain her speech and movement and to re-establish her career, she

undertook an arduous program of rehabilitation and returned to acting, receiving an Academy Award nomination for *The Subject Was Roses*. More recently, Neal has starred in many television dramas, for which she has received three Emmy nominations. She has been active in causes relating to rehabilitation and has become a symbol of hope and victory to the disabled. Her autobiography, *As I Am*, was published in 1988.

Presented by Martha Grimes Mabie, Trustee, Northwestern University

YASUTOMI NISHIZUKA
Doctor of Science

MD, PhD, Kyoto University, 1957, 1962. Professor and chair of the Department of Biochemistry at the Kobe University School of Medicine, Nishizuka discovered the enzyme protein kinase C. In every cell studied, protein kinase C has proven fundamentally important to the signal transduction process, which enables living cells to communicate with each other. Since the discovery in 1977, he has shown that this enzyme is central to our understanding of cancer cell growth, nervous system functions, and cellular processes of gene regulation. His reviews in the journals *Science* and *Nature* in 1986 and 1988 are among the most often quoted articles in the biological sciences. A member of the editorial boards of 11 major biochemical journals, he has received many awards, including the Kyoto Prize, the Lasker Award, and the Cultural Merit Prize of the Japanese government. He is a foreign associate in the National Academy of Sciences.

Josephine Mary Tabor, BA, Northeastern Illinois University, 1980. Liberal Studies.

Meredith Clare Vuchnich, BA, University of Western Ontario, 1991. Theatre.

Charles William Wagner, BA, Johns Hopkins University, 1993. Radio/Television/Film.

Irmgard Walter-Koch, Vordiplom, Rheinische Friedrich-Wilhelms Universität Bonn, 1989; Diploma, Ruprecht-Karls Universität Heidelberg, 1993. Mathematics.

Susan Grace Winchell, BA, University of California, Santa Barbara, 1990. Education and Social Policy—Counseling Psychology.

Ellen Helene Winick, AB, University of Michigan, 1983. Education and Social Policy—Learning Sciences.

Amy Gardner Wyeth, BA, Wellesley College, 1990. Communication Studies.

Master of Fine Arts

Degree awarded December 29, 1993

Patrick Chan, BA, Simon Fraser University, 1988. Theatre.

Michael Robert Elyanow, BA, Clark University, 1987. Radio/Television/Film.

Richard Lee Kennedy, BS, James Madison University, 1988. Theatre.

William J. Moran, BFA, Columbus College of Art and Design, 1988. Art Theory and Practice.

Martha Jean Mountain, BA, College of William and Mary, 1986. Theatre.

Nicholas John Mozak, BFA, Illinois Wesleyan University, 1974; MFA, Wayne State University, 1982. Theatre.

Ashley Ruth Smith, BS, University of California, Davis, 1986. Theatre.

Shelley Lu Strasser, BS, Eureka College, 1987. Theatre.

Candidates for degree, June 18, 1994

Joseph Alexander Aranyosi, BA, University of Richmond, 1991. Art Theory and Practice.

Cheryl Lynne Cory, BFA, University of Toledo, 1988. Theatre.

Jeffrey Alan Coryell, BA, Carleton College, 1978; JD, New York University, 1982. Art Theory and Practice.

Frank E. Fitzgerald, BS, University of Wisconsin—Madison, 1991. Art Theory and Practice.

Pamela Ruth Hendrick, AB, University of Michigan, 1974. Theatre.

Marie Louise S. LeBourgeois, BS, University of Wisconsin—Madison, 1985; BFA, School of the Art Institute of Chicago, 1990. Art Theory and Practice.

Kathleen Whitney Moynihan, BS, Rensselaer Polytechnic Institute, 1985. Radio/Television/Film.

Scot M. Reese, BA, University of California, Los Angeles, 1981. Theatre.

Barbara Alexandra Yaross, BMus, DePaul University, 1986; BFA, School of the Art Institute of Chicago, 1988. Art Theory and Practice.

Master of Science

Degree awarded December 29, 1993

Jonathan Craig Adece, BS, BA, Northwestern University, 1992. Mechanical Engineering.

Bradley Jay Adelman, BS, University of Michigan, 1991. Chemistry.

Alan Martin Allgeier, BS, Case Western Reserve University, 1992. Chemistry.

Rebecca Louise Anderson, BS, Johns Hopkins University, 1992. Civil Engineering.

Stuart A. Aronin, BS, Loyola University of Chicago, 1992. Industrial Engineering and Management Sciences.

Muhammad Ather Ashraf, BSc, University of Engineering and Technology, 1989. Chemical Engineering.

Oliver Vincent Atassi, BS, University of Notre Dame, 1992. Applied Mathematics.

Linda D. Barkoozis, BSN, Northern Illinois University, 1988. Nursing.

Zoe Irene Barsness, AB, Harvard College, 1987. Organization Behavior.

Edward C. Behnke, BS, North Central College, 1990. Computer Science.

Rosemary Tonya Berger, BS, College of William and Mary, 1992. Industrial Engineering and Management Sciences.

Mikel Issirene Berrebi, Civil Engineering.

Kathleen Ann Bethke, BS, University of Wisconsin—Madison, 1992. Chemistry.

Tanja Boskov, MD, University of Novi Sad, 1989. Biochemistry, Molecular Biology, and Cell Biology.

Kimberly Ann Briggman, BS, St. Mary's College, 1992. Chemistry.

Eric Francis Brown, BS, University of Notre Dame, 1991. Chemical Engineering.

Bain Alan Cameron, ScB, Brown University, 1991. Geological Sciences.

Dean James Campbell, BS, University of Wisconsin—Green Bay, 1991. Chemistry.

Russell Lynn Chalfant, BS, Drake University, 1992. Applied Mathematics.

Kam Chan, BDS, National Defense Medical Center, 1982. Endodontics.

Chiung-Wen Chang, BS, National Taiwan University, 1991. Computer Science.

Hsinyi Chang, BS, Taipei Medical College, 1992. Biotechnology.

Sally Ann Cheatham, BS, Duke University, 1992. Applied Mathematics.

Po-Yuan Cheng, BS, National Taiwan University, 1990. Computer Science.

Chung-Cheng Chiang, BBA, National Taiwan Institute of Technology, 1990. Industrial Engineering and Management Sciences.

Kuo-Tzen Chiao, BS, Chung Yuan Christian University, 1986. Mechanical Engineering.

Junghyun Cho, BS, Yonsei University, 1991. Materials Science and Engineering.

Sandy Fu-Ming Chuang, BS, Northwestern University, 1991. Industrial Engineering and Management Sciences.

Alexander Whipple Clague, BA, Amherst College, 1992. Chemistry.

Colleen Bridget Connolly, BS, Loyola University of Chicago, 1992. Chemistry.

Susan McDonald Conyers, BS, Virginia Polytechnic Institute, 1992. Chemistry.

Dolores Cwik, BS, University of Illinois at Chicago, 1992. Biotechnology.

Jeffrey Robert Czerniak, BS, University of Michigan, 1990. Chemistry.

Mark Hayes Davey, BS, University of Michigan—Dearborn, 1992. Chemistry.

- Frederick Drew Dean, BS, Northwestern University, 1992. Electrical Engineering.

ACADEMIC DRESS AND SEATING CHART

Modern academic attire originated in the medieval universities of Europe, where gowns were worn daily to provide identification of the wearer's academic area and warmth in poorly heated buildings. Two English universities, Oxford and Cambridge, are particularly noted for developing the authentic academic costume, which has changed only slightly through the centuries.

In the United States the great majority of academic attire now worn is in accordance with the general provisions of the Intercollegiate Code of 1895, which was revised in 1932 and again in 1959. Under this code the bachelor's gown has pointed sleeves and is worn closed; the master's gown has oblong sleeves with an arc at the bottom and may be worn open or closed; and the doctor's gown, which may also be worn open or closed, has velvet facings down the front and three velvet bars on the bell-shaped sleeves. This velvet trim may be black

or the prescribed color of the academic area. The recommended color for gowns is black, although many institutions have adopted colored ones. Graduates of foreign universities wear gowns of various colors.

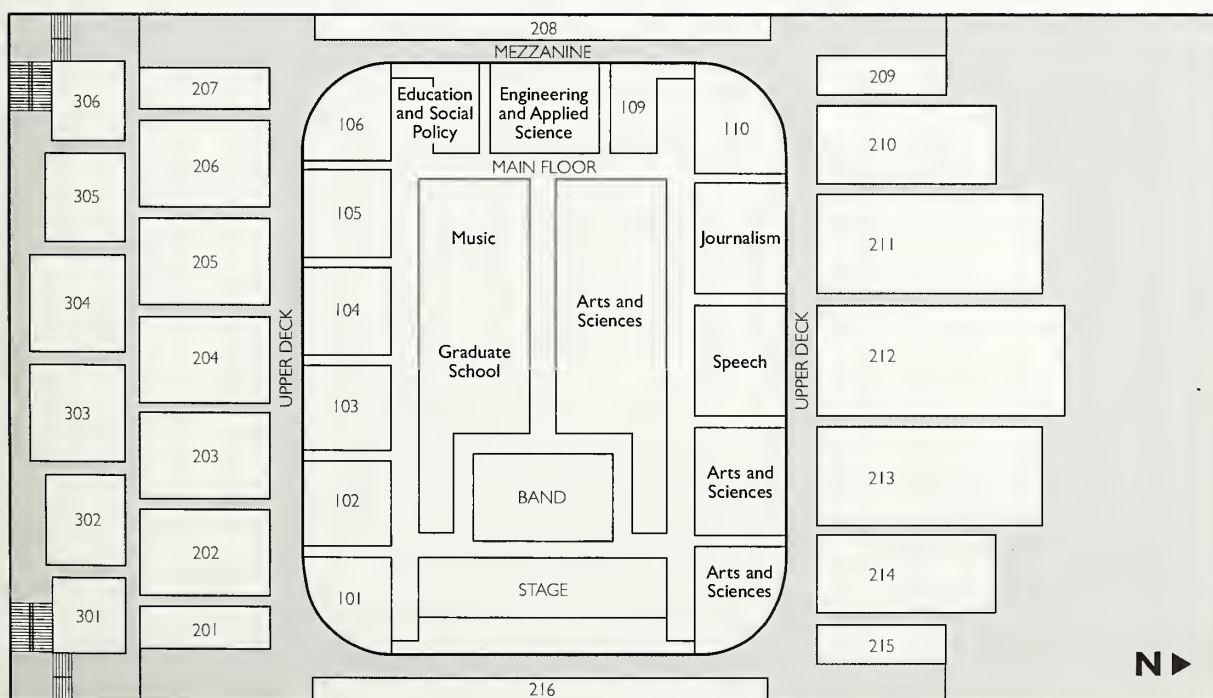

The hood identifies the level of the degree, the school that granted it, and the academic area. The bachelor's hood, which is optional and not worn at Northwestern University, is three feet in length; the master's, three and one-half feet; the doctor's, four feet. Hoods are lined with silk in the official color of the school; at Northwestern the lining is purple. The velvet border of the hood, which is two, three, and five inches wide for the bachelor's, master's, and doctor's degrees, respectively, identifies the academic area.

The square black mortarboard is the recommended cap, although some school have adopted other styles. At Northwestern the color of the tassel represents the academic area. Caps are worn

throughout the Commencement ceremony, except that men remove them for the national anthem, invocation, and benediction.

At Northwestern University the tassels and borders of the hoods are the following colors:

College of Arts and Sciences	White
Medical School	Green
School of Law	Purple
School of Speech	Silver gray
Dental School	Lilac
School of Music	Pink
J. L. Kellogg Graduate	
School of Management	Acorn
Medill School of Journalism	Crimson
School of Education and	
Social Policy	Light blue
Robert R. McCormick	
School of Engineering	
and Applied Science	Orange
Graduate School	Black
